DESIGNING TOMORROW RESPONSIBLY

Greenlam ESG journey
is based on 4 key
philosophies

*At manufacturing level

GREENLAM UNIFIED SOLUTIONS

Imagine a space where every element works in perfect unison. With our comprehensive product range, achieving a cohesive and unique design identity is easier than ever. We've curated a complete selection of materials, taking the guesswork out of coordination. It's like having a team of specialists at your fingertips, delivering everything you need for a stunning, unified interior.

Antivirus & Anti-bacterial Protection

Greenlam laminates are treated with high-efficacy, anti-microbial agents, retarding and eliminating up to 99.9% of commonly found bacteria and viruses, including SARS-CoV-2, which causes COVID-19.

Fire Retardant

Greenlam laminates have been tested to achieve optimal fire-propagation reduction and surface spread-of-flame performance. Proof of certification is available upon request.

NSF Certifications

Greenlam laminates are manufactured according to the NSF^ food safety and environmental health standards, and can come in direct contact with food. All Greenlam laminates with decors listed on NSF website are certified by prestigious American body, NSF International, making them the safest laminates for human health. Our surfaces can be used in situations where they will have direct contact with food. “Our surfaces have also been tested in accordance with EC directive 1935 with regards to food safety. Our products were proved fully compliant through testing to the demanding EU Food Commission Regulation 10/2011 with successful testing to BSEN 1186-1:2002, BSEN 1186-3:2002 & BSEN 1186-14:2002”.

10 Years Warranty

Greenlam offers 10 year warranty on all products against manufacturing defect.

30 Years of Excellence

Greenlam has won various prestigious awards including Delhi’s Best Employer Brand Award, Largest Exporter of Laminates, Expert’s Choice Award, Power Brands, Master Brand, 100 most Valuable Brands, among many others.

Disclaimer:

* "As per the test report SARS Cov-2 virus gets more than 99% retarded after 45 mins of the contact"

** "As per the test report virus gets 99.99% retarded in 24 hours of contact"

*** "As per test report bacteria gets 99.99% retarded after 24 hours of contact"

Environmental Credentials

We are proud to exceed the industry benchmark in the area of green certifications. In particular, rigorous tests have shown that Greenlam laminates emit minimal levels of VOCs**, which have the potential to adversely impact the health of people that are exposed, and are certified to be suitable for use in environments where children may spend significant periods of time, such as hospitals and clinics.

The mark of responsible forestry

FSC®: Forest Stewardship Council. Greenlam provides FSC® certified products on request (Certification No. DNV-COC-002714)

PEFCTM: Programme for the Endorsement of Forest Certification. Greenlam provides PEFCTM certified products on request (Certificate No. DNVSE-PEFC-COC-379)

The beauty of well defined wood grains will never go out of style. From quiet minimalism to bold masculinity, the secret of our ultra-realistic wood laminates lies in the precise colour tones and three- dimensional surface designs. Backed by our experience and knowledge in wood veneers, we are able to achieve the unique veneer look that give our laminates their distinct wood lines, swirls, knots and cathedrals.

With a wide range of patterns and textures, our laminates have been designed for every possibility. This ranges from naturally occurring stones like marble and granite to man-made materials like textiles and concrete. All the patterns on Greenlam laminates are the result of the layer of decor paper that is infused on the laminate. With our advanced printing technology, we are able to mimic the finest details of the materials we replicate, resulting in ultra-realistic surfaces that are almost indistinguishable from the original.

Maintenance Manual

Maintaining the luminous shine and looks of GREENLAM® laminates is easy. Just follow these simple methods for optimal durability of the laminates:

CLEANING PROCESS

1. DAMP CLOTH OR SPONGE

A damp cloth or sponge is all you need. You can also use a mild soap or detergent to clean the surface.

2. DETERGENT

In cases of difficult stains such as coffee or tea, do not fret. These can be easily removed using a mild household cleaner or detergent.

3. BAKING SODA

If the stain becomes stubborn, use a little baking soda and water, and apply with a soft bristled brush. But remember excessive scrubbing or exerting too much force may damage the decorative surface, especially if it has a gloss finish.

PRECAUTION

1. HARSH CHEMICALS

Oven or drain cleaners with etch and discolour the decorative surface. If the product spills, remove immediately, rinse and wipe dry.

2. HOT OBJECTS

Protect the surface from the heat generating appliances by using a trivet or insulated pad. Prolonged exposure to high temperature may result in separation of the laminate from the substrate.

3. SHARP OBJECTS

Never use knives or other sharp objects directly on a decorative surface. Use cutting boards to protect the laminate top.

4. IMPACT

Be careful not to drop heavy objects or hammer directly on the surface. Even though high-pressure decorative laminates have excellent impact resistance, chipping or cracking may occur as a result.
